Introduction

In this project, we are group into groups of 4-5 Competitors.

Description of project and tasks

Lyon is generally acknowledged by the French to be the gastronomic capital of France. In this project, please create a guide to curate cuisine information and restaurants in Lyon. This web page will be useful for the tourists to find restaurants and have good meal for their visit to Lyon.

You may focus on different perspective to demonstrate the gastronomic capital. For example, you may focus on the restaurant locations, or food recipes, or fun facts sharing. These are some initial ideas, please work with your team to create a creative and attractive solution.

Instructions to the Competitor

Please work with your team members and organize the project files within the team. Please have effective communication with your team members.

Other

You may use your own laptops and access to internet in this project.

Please prepare a presentation of your result of the Test Project.
